- Master's Degree in Formal Methods in Computer Science (2019 - 2020)

B2 English

UAM Language Service (2018)

"Time is the currency in which we must invest in order to become better engineers"

var Resume=

My name is **Juan Diego** Sierra Fernández, and I am 27. Graduated in **Telecommunications Engineering** with a grade of 9.4 in the final project and winner of the *UAM Entrepreneurs Program* in my university on 2019.

Passionate of developing and researching about modern software methods and technologies. I usually work with **Blockchain, IoT, Cybersecurity & Cloud** technologies.

But there are other important things in my life besides technology such as stock investing, giving technology talks, traveling, snowboarding, producing electronic music or watching sci-fi movies. It would great to have my office close to my house because I'll be able to use my electric bike on a daily basis.

var Experience=

-> **Blockchain Engineer** in Sopra Steria (July 2019 - Currently):

* Working for Airbus Defence & Space.

* Working for World Health Organization (OMS) (Covid-19)

-> **IoT Developer** in Altair Engineering (Sep. 2018 - July 2019)

-> **Blockchain Developer** in Blocknitive (Startup) (January 2017 - September 2018)

-> **Founder** at VIKYNGO (Startup) (January 2016 - January 2017)

-> **Founder, manager, event planner & music producer** in "Darkside Madrid" (Live Music) (2010-2016)

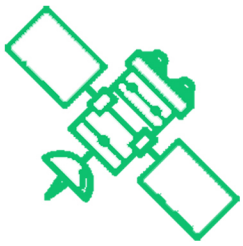
var Stack=

-> **Languages:**

* Main: JavaScript (NodeJS), Python, TypeScript

* Others: Java, C, Rust, Bash, Go, Matlab, VHDL

-> **IDE:** IntelliJ IDEA

-> **Opterating System:** Linux (Pop, Parrot)


-> **Terminal:** ZSH
